UCLA Police Department

In an effort to promote campus safety and provide timely information to our campus community, the following information is being provided so that you can make informed decisions about your safety.

Report

The UCLA Police Department received a report of a motor vehicle theft (e-scooter) that occurred at Wasserman Football Center on 11-21-2026 10:07 PM. E-scooter and e-bike thefts have been occurring across campus, with notable theft activity at the 400 Block of Charles E. Young Drive West and the 900 Block of Weyburn Place.

UCLA PD is investigating this crime. If you have information that might assist in the investigation, please contact the UCLA Police Department at 310-825-1491.

UCLA PD reminds the campus community of the following:

- Read more about UCLA's Personal Mobility Device Safety Guidelines and Resources at https://transportation.ucla.edu/micromobility.
- Document your e-mobility device including its make/model, serial number, color, any unique or identifying features, along with a photo of it. Register your device with UCLA Transportation at https://transportation.ucla.edu/micromobility/registration.
- Lock your bike/scooter in well-lit, busy areas, as thieves prefer stealing e-mobility devices from isolated areas.
- Most thefts can be prevented by using an adequate lock and properly securing the bike/scooter to an approved parking facility such as a bicycle rack. It is best to lock the frame and wheels by using a U-Lock and a six-foot cable or chain.
- Consider mounting a GPS tracker on your device.
- Immediately report all suspicious behaviors, vehicles, and activities to the UCLA Police Department at 310-825-1491.

WHAT IS THIS NOTICE?

In compliance with the Clery Act, Timely Warnings are issued by the UCLA Police Department when certain (Clery Act) crimes occurring on campus property, properties controlled by campus-affiliated organizations, or public property immediately adjacent to campus are determined to be a serious or continuing threat to the campus community. Timely Warnings are intended to prevent similar crimes and to provide information that will assist community members in protecting themselves. A Timely Warning is not the same as a BruinALERT. A BruinALERT is an Emergency Notification for situations involving an immediate threat to the health or safety of students or employees.

Information reported in a Timely Warning may not have been investigated or confirmed at the time of the issuance of the warning, and physical descriptions of a suspect will be included only if there are enough details to distinguish the suspect's appearance from the general population. Descriptions of suspect(s) - including traits such as race, ethnicity, and gender - are provided by witnesses, victims, and/or investigative steps and are NOT considered the basis for suspicion; only behaviors are considered suspicious.

For more information, please visit: https://www.police.ucla.edu/content/timely-warnings-and-emergency-notifications.
